## COURSEWORK

**UNDERGRADUATE**
Advanced Data Structures
Discrete Mathematics
Computer System
Organization
Object Oriented
Programming
Application Programming
Design and Analysis of
Algorithms
Operating System
Software Engineering

## SKILLS

**PROGRAMMING**
(Intermediate) • C • C++
(Beginner) • Java • Python
• Javascript
Familiar Languages and
Tools:
Latex • HTML • CSS • GIT
• Android • React.JS

## ACHIEVEMENT

- Rank 2774 out of 29549 in codeforces round 648 DIV2.
- Rank 370 out of 14495 in codechef december challenge contest in 2019.
- Rank 823 out of 8501 in May Lunchtime 2020 .
- Got 1090/5289 rank in March cook off contest in 2020.
- Rank 193 out of 1272 participant in a contest UWCOI20C on codechef.

## PROJECTS

**PRIME-VIDEO-VIEWER** web based App
An App made using ReactJS Library which gives options to watch your favourite prime videos .Simple concepts of Props and Components are used to develop it, with a frontend part in CSS.

**MOVIE BOOKING SYSTEM** Terminal based project
A course project of Movie Booking System in C++ programming language using concept Of OOPS,File Handling and DataStructures.

**DATA MANAGEMENT SYSTEM** Terminal based project
A course project on student record data management system implemented using AVLtrees and Linked Lists and file handling for storing data in C

## EXPERIENCE

- Content writer on geeks for geeks
- Worked as Setter and Tester in Programming Contests Organised on Codechef by Coding Club of IIITNagpur.
- Worked as a Teaching Assistant for Course on Competitive Coding.
- Convener at Coding Club of IIIT Nagpur.
- Regular Participation in contest organised on codeforces and codechef and on various other Platforms.
